Academic Positions

University of Galway — Galway, Ireland
Research Associate (Postdoctoral Researcher) — 2026 –2027

Education

University College Dublin — Dublin, Ireland
PhD in Economics (supervisor: Margaret Samahita) — 2023 –2027 (viva expected in Jan. 2027)

Universitat de Barcelona — Barcelona, Spain
Visiting PhD student (host: Francesco Capozza) — Spring 2026

University College Dublin — Dublin, Ireland
MLitt in Economics — 2022 –2023

University College Dublin — Dublin, Ireland
MSc in Applied Economics — 2021 –2022

National Chengchi University — Taipei, Taiwan
BBA in International Business — 2013 –2017

Teaching and Research Fields

Primary: Experimental Economics, Behavioral Economics, Game Theory
Secondary: Public Economics

Job Market Paper

Discriminated but not Discouraged: Investment Responses to Algorithmic Discrimination
(status: under review)
In a pre-registered online experiment (N = 553), I study how people invest to improve their hiring prospects when an algorithm evaluates identity groups differently. Participants assigned to the disadvantaged group invest 17.7% more than those in the advantaged group. Providing information about same-group predecessors has limited effects, while making investment costs payable only if hired increases disadvantaged participants' investment by 24%. The findings show that algorithmic disadvantage does not discourage investment in this context and that reducing its financial risk can meaningfully change behavior.

Publications

Motivation in All-Pay Contests. *Journal of Public Economic Theory,* 2026
